

## Cromanton.

Mr Robert Studebaker has his new boat in the water.

C. W. Forbes has his launch hauled out giving it a fresh coat of paint.

H. M. Felix and wife, from his yacht Jolly Rover, attended church here Sunday night.

Chas. Williamson from the upper end of this county was here on business one day last week.

Prof. Littleton party, mentioned last week as camping on C. W. Forbes place, report good catches of trout.

There was no preaching Sunday morning on account of the people desiring to go to Parker to attend Mr Donaldsons funeral.

There was a goodly little gathering at Sunday School Sunday morning. The Superintendent being absent Mrs Dobbs the assistant took charge.

Miss Nina Ecker and Miss Frances Kearns, Robert Studebaker and Capt Wm Railsback went to the gulf Sunday morning, returning in time for services Sunday night.

Last Thursday there was a very pleasant birthday party at Charles Ecker's, it being his birthday. E. Mosher, C. W. Forbes and Robert Studebaker were invited guests.

The launch Stella, Ezra Kinney's new boat, took the following named parties to Parker Sunday, E. Kinney and wife, Frank Hoskins and wife, Miss Addie and little Gladys Hoskins, Earnest Spicer and wife and Rev Carlisle.

Rev Carlisle filled his appointment here Saturday and Sunday afternoon. The Saturday night's lesson was especially practical; drawing lessons from the life of Joseph, on "True Prosperity." Sunday night he preached from the text, "Watch and Pray, Lest ye Enter into Temptation."

Mr Cardon and family were up from Sea View Saturday night attending the moving picture show, taking dinner Sunday at Mr Hodges. As Mr Cardon was driving into Cromanton passing over a bridge on his way one of the wheels struck a slippery plank and slid off the bridge throwing his little girl out of the buggy and under the horses feet; luckily the horse was very gentle and stopped at once, and the little girl escaped with a few bruises and a big scare all around.

The stereopticon and moving picture show Saturday night was held in Mr Ecker's yard. The air was perfectly clear and just cool enough to be pleasant. The pictures showed up to good advantage and all present felt well entertained. Mr Studebaker certainly has a fine collection of views. Some of them are photos of places and look very real. After the show Mr Studebaker gave a chance to examine the machine and see how the pictures look before going into the same which was enjoyed by some of the ladies who had never seen that part of the show before.

Dothan Correspondence.

DOTHAN, ALA., July 23, 1907.

DEAR PILOT: I arrived home o. k., tired and worn out; to-day I feel better but oh how I pine for the breeze that makes one feel so good. I find it awful warm here and quite a lot of sickness, am coming back as soon as possible where I can feel more comfortable and catch and eat fish. By the way there will be several who will be with me and whom I have told we could get fish to eat, all they wanted, and some will no doubt buy lots, build and be one of us, so have our fishing tackle in shape and assist me in proving my every assertion.

Our ice plant men will be down next week, so they told me to-day. I find our friend Thos Farmer in good shape again and he says in a few days he will join us again. I found along the line a large number rail road hands, and up and down the line for 15 or 20 miles the sound of dynamite was heard going on like incessant thunder. They have the iron laid down to Compass Pond and building a town at Compass Pond and Round Lake that is nice, but they have not got the old field to back them up when the gentle zepthers from far across sweep the shores for 3 to 5 days in the year bringing in surf water, fresh oysters, crabs and many other things too numerous to mention.

Crops here are extra fine, the best they have been for years. Did the

boys kill the bear they had penned? As I passed through I met quite a number of teams going to the bay, among them my friend, W. H. Crawford and family, as good people as ever went to East Bay and I feel that these good people are there to stay.

The people of this section are proud of our bay country and many of our far seeing ones predict for it to become in the near future one of the finest seaports towns in the south. Blessed as we are with so many advantages that others of such character too are not. Our 70 miles bay front, good deep water, land locked, pleasant the year around, and when it comes to vegetables we can beat the world. Here comes some of the boys to see skinnies so I will stop. W. F. G.
